

Committee savings, held and moved by a bank

A partnership proposal for Mashreq Bank Pakistan

Taha Amjed, Chairman, Halqa

October 2026

Summary

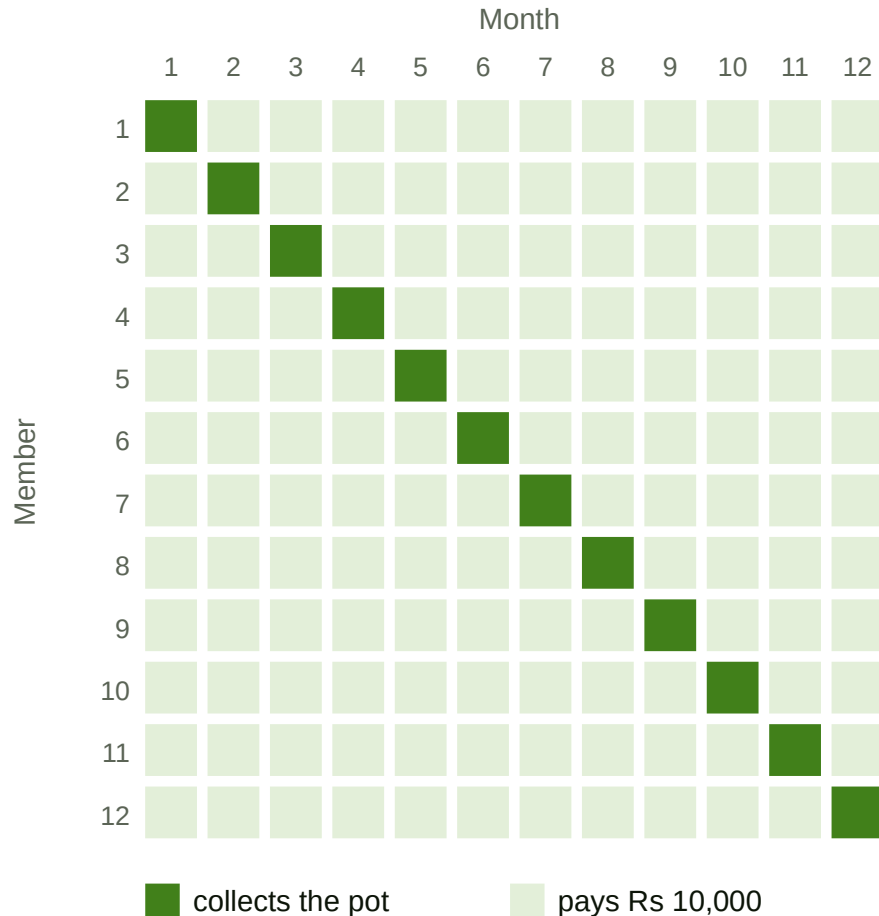

Halqa proposes to run Pakistan's committees on Mashreq accounts.

The habit	More than a third of Pakistanis save in committees, in cash, outside any bank.
The proposal	Every member banks with Mashreq. Mashreq holds and moves every rupee; Halqa runs the committee.
For Mashreq	Accounts opened 6 to 20 at a time, deposits, an Islamic product and a repayment record to lend against.
For members	No organiser holding cash, automatic payment, cover against default and a credit record.
The request	Seven decisions, then one live month with about 1,000 members.

How a Committee Works

Everyone pays the same amount each month. Each month, one member takes the whole pot.

Rs 10,000

paid in by every member, every month

Rs 120,000

the pot, taken by one member each month

First turn. An advance without interest, repaid by the instalments that follow.

Last turn. Saving, with a deadline the group enforces.

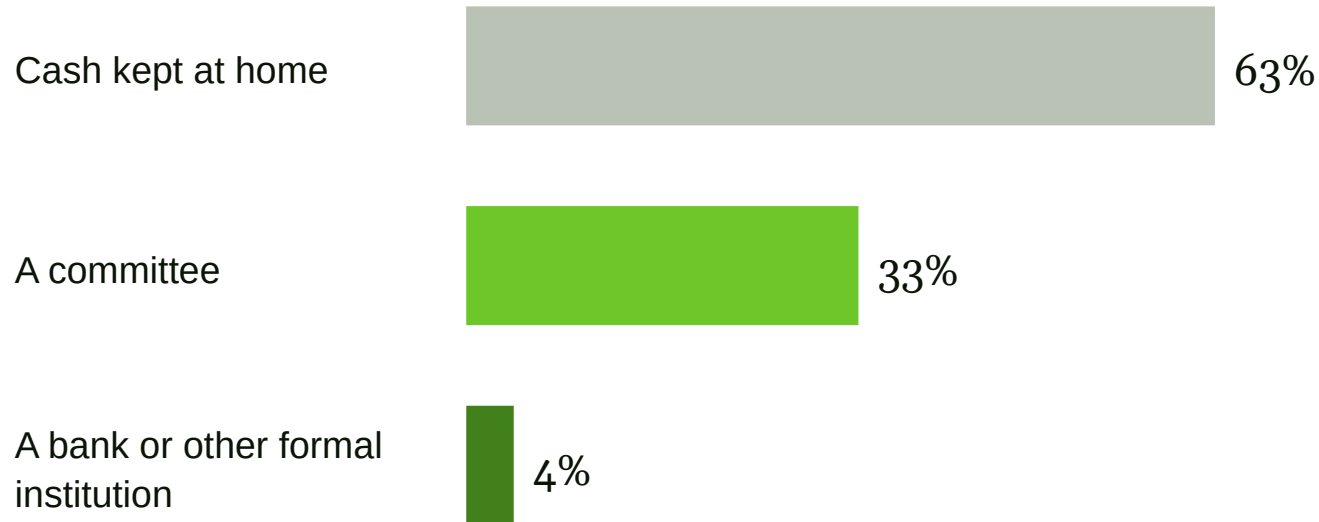

In total, every member pays in Rs 120,000 and takes out Rs 120,000.
No interest.

The Market

More than a third of Pakistanis save in committees. Almost none of that money reaches a bank.

Where Pakistani savers keep their savings, per cent of savers [2]

34% to 41%

of Pakistanis take part in committees [1]

Rs 4 trillion

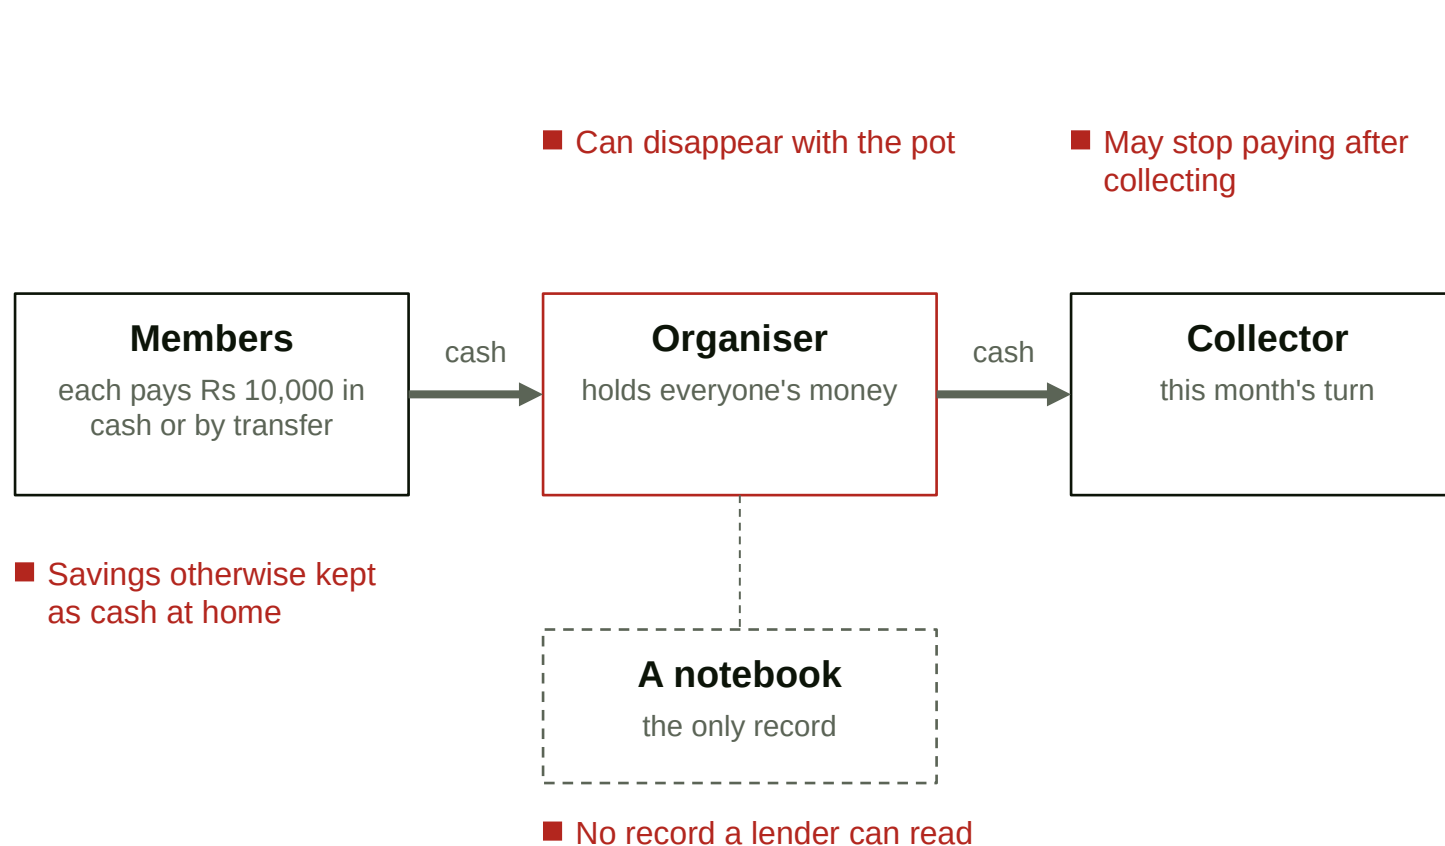

estimated to pass through committees each year [1]

Twice

the rate of participation for women as for men [2]

The Problem

Committees run on trust and cash. When the trust fails, members lose their money.

12%

of committee users lost money to fraud [1]

Rs 420 million

taken from 117 committees by one
organiser, 2022 [2]

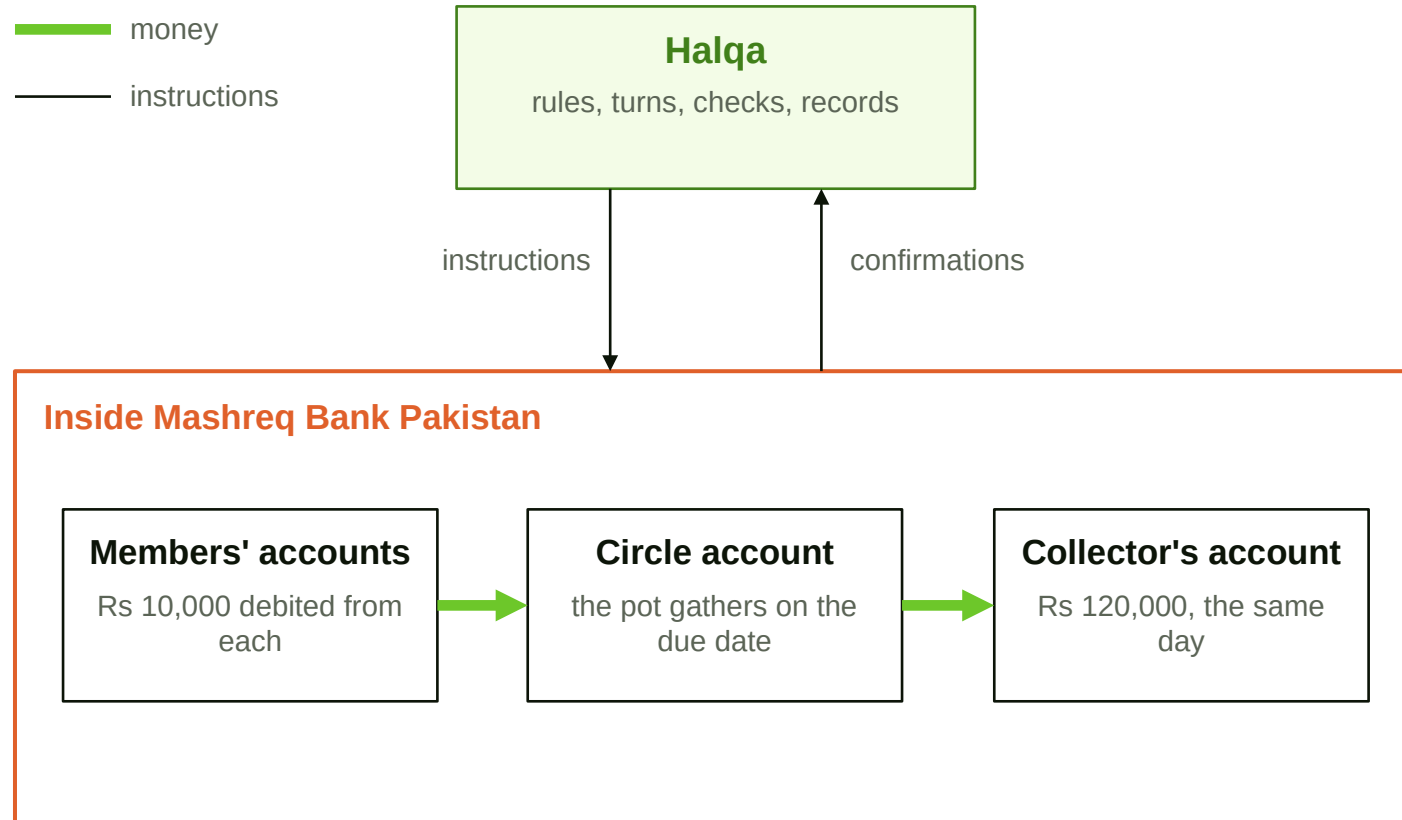

63%

of savers keep savings as cash at home [1]

The Proposal

Halqa is the system. Mashreq is the machine. Every rupee stays inside Mashreq.

Halqa runs

- Hosts, members, circles and the order of turns
- Checks on identity, income and affordability
- Reminders, late payments and recovery
- The ledger, receipts and records

Mashreq runs

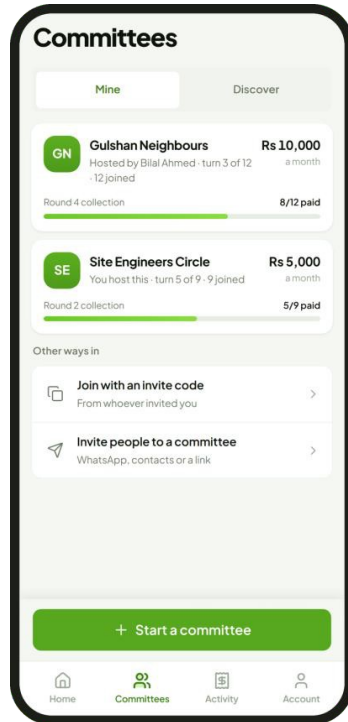

- Accounts and customer checks
- Direct debits and payouts
- Savings and profit on balances
- Cover and credit reporting

Halqa never holds member money and never lends.

The Product

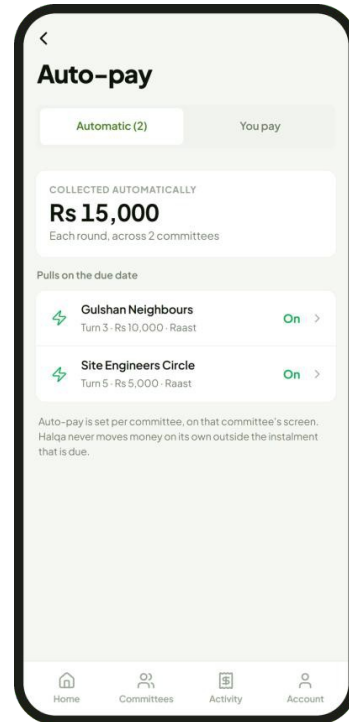

Members do everything in the Halqa application. Under the partnership, the Mashreq account opens inside it.

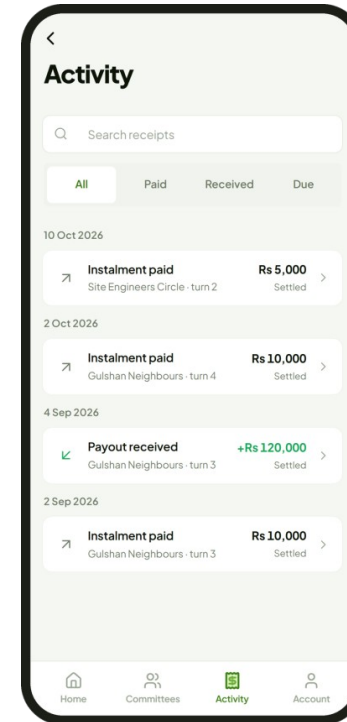

1 Join a circle

Only circles and turns the member qualifies for

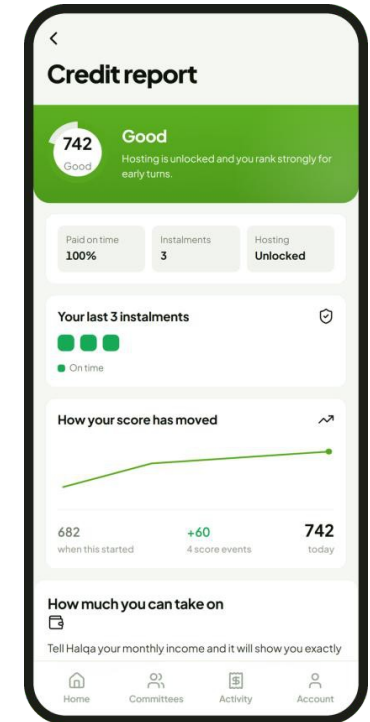

2 Pay automatically

Debited by Mashreq on the due date

3 Collect the pot

Paid into the member's own account

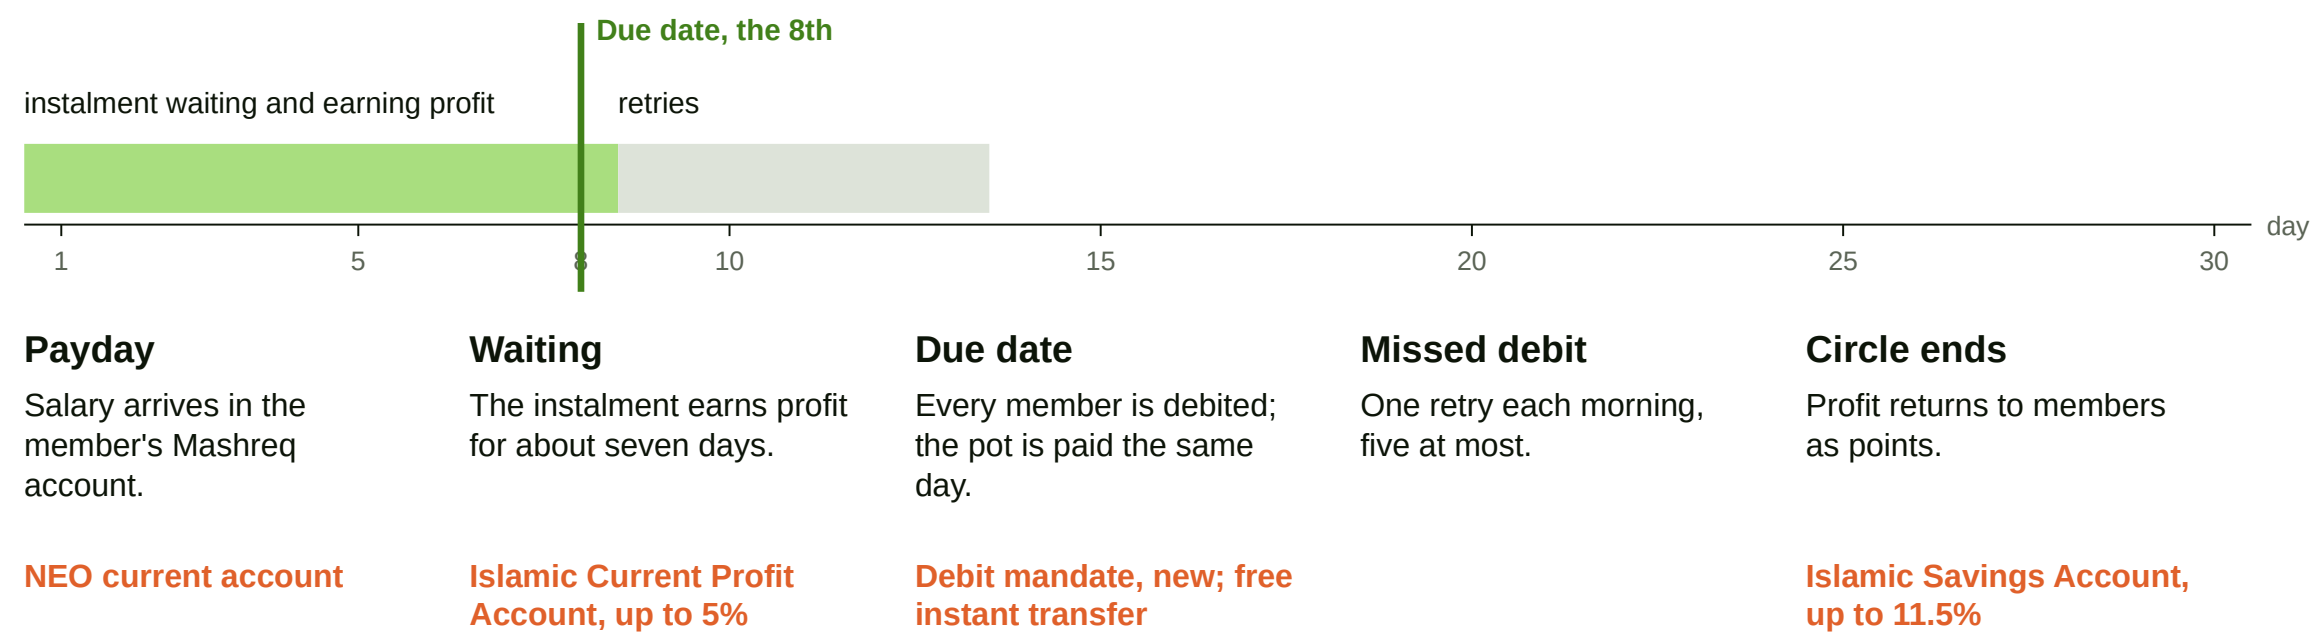

4 Build a credit record

Every payment scored and reported

A Month Inside Mashreq

Each step runs on a Mashreq product. The debit mandate is the one new piece.

Also used. The Mashreq Pakistan Account, for families in the UAE. **New lines.** Cover for defaults; financing for asset circles.

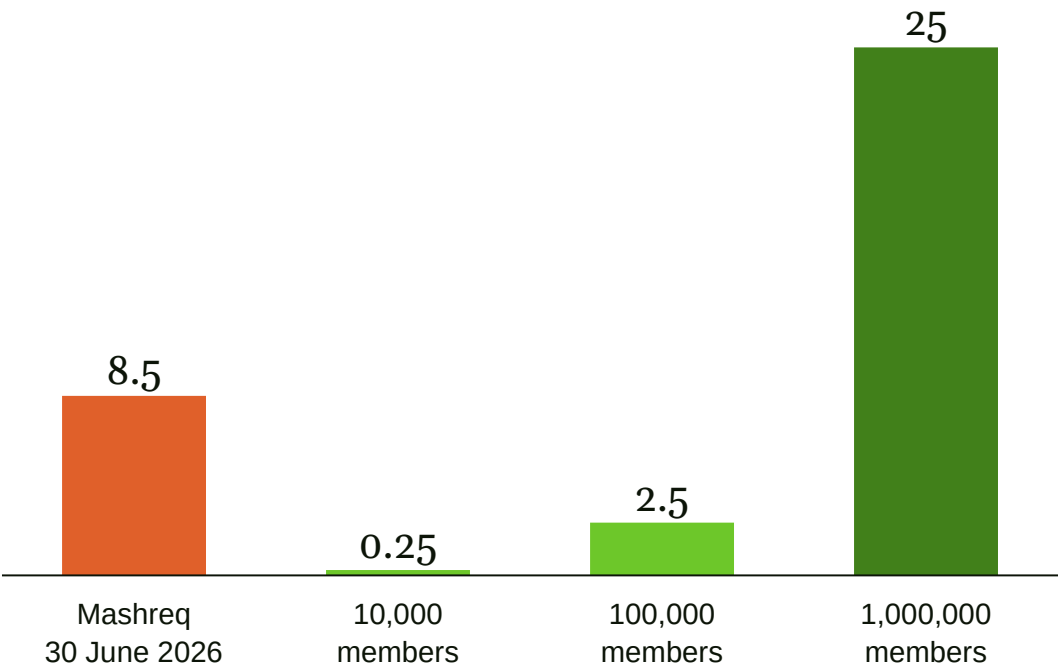

Mashreq NEO product pages and rate sheets, read 29 September 2026; rates are up to figures. The due date of the 8th is proposed.

Mutual Benefit

100,000 members would add about Rs 2.5 billion of deposits and 100,000 accounts.

Customer deposits, Rs billion

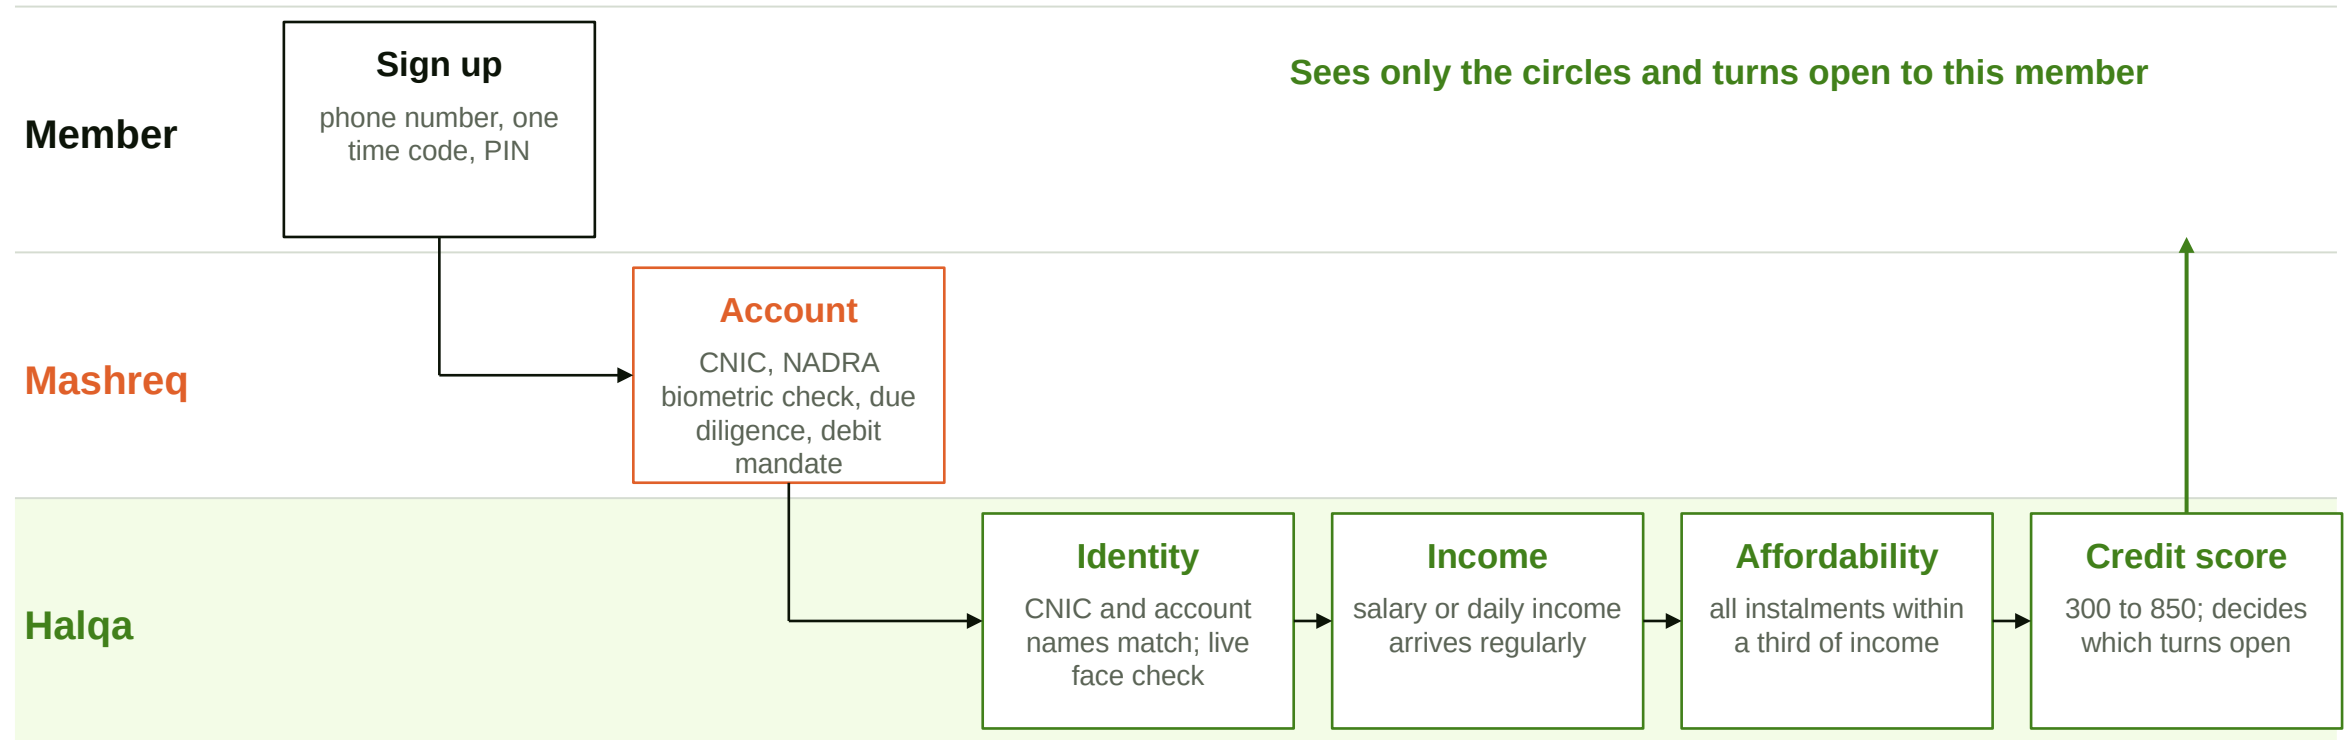

Assumes Rs 25,000 average balance a member. Mashreq's own figures replace this.

Mashreq's aim or need	What committee members bring
10 million customers in five years	Accounts opened 6 to 20 at a time
Salaried people and women	Women join at twice the rate of men
Islamic first banking	No interest; one flat fee; takaful
A lending book; no advances yet	A repayment record for every member
Overseas Pakistanis	UAE families in the same circle

Onboarding and Checks

Mashreq checks the customer. Halqa checks whether the member can carry the committee.

Checks rise with risk. Known circles: identity only. Strangers: income, affordability and a credit report as well. Hyper: proof of daily income too.

Stored. Results only; never face images, card numbers or passwords.

Committee Types

The less members know each other, the more checks apply.

	Known	Strangers	Large, strangers	Asset	UAE family	Hyper
Who	family, colleagues, neighbours	matched by Halqa	traders and larger savers	buying a motorcycle or machine	families in the UAE and Pakistan	daily earners: drivers, riders, traders
Members	6 to 12	12	20	12	6 to 12	390 to 400
Instalment	Rs 2,000 to 10,000	Rs 10,000	Rs 25,000	Rs 10,000	any amount	Rs 450 to 500 a day
Frequency	monthly or weekly	monthly	monthly	monthly	monthly	daily
Income checked	○	●	●	●	○	●
Automatic debit	○	●	●	●	●	●
Cover	○	●	●	●	○	●
Credit report read	○	●	●	●	○	●
Stage	pilot	after the pilot	after the pilot	after the pilot	after the pilot	experimental

● required
○ not required

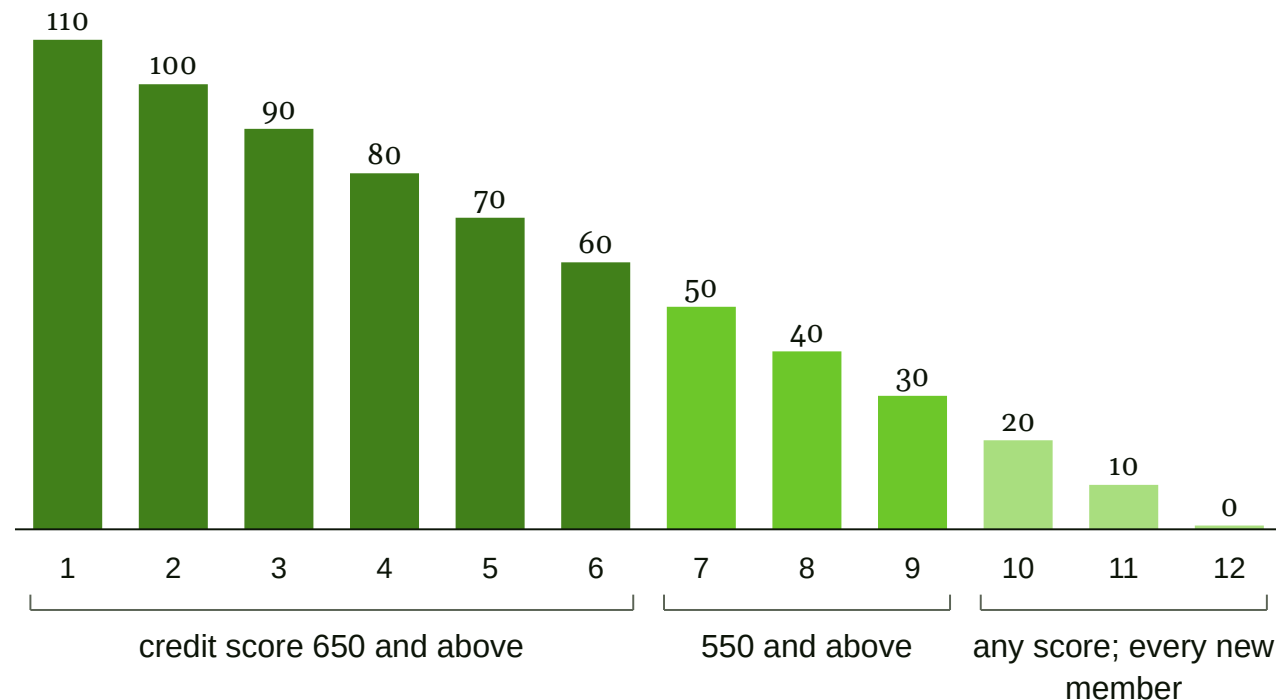

Turn bands apply in every type. Cover and financing follow the bank's choice of product.

Where the Risk Sits

Only an early collector can leave others short. Early turns need strong credit scores.

Still owed after collecting, by turn, Rs thousand: twelve members at Rs 10,000

Turn bands. The credit score decides which turns a member may claim.

New members. The last three turns only, until two clean circles.

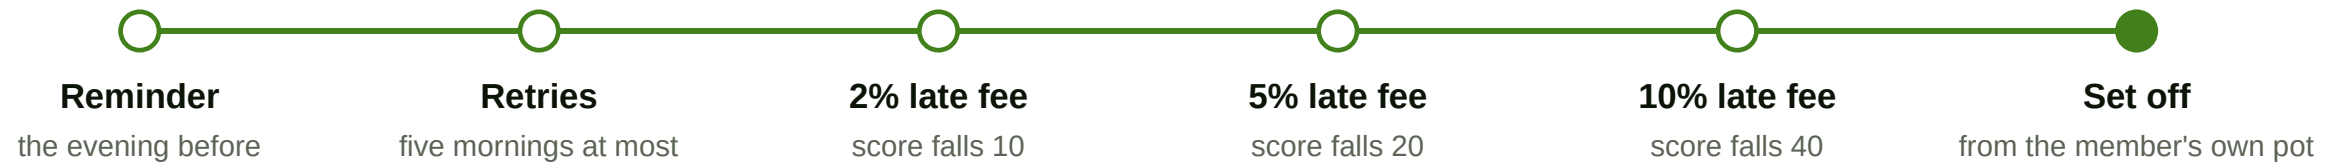

Affordability. All instalments within a third of verified income; 40% with other loans.

Commitments. A signed undertaking and mutual guarantee; 24 hours to withdraw.

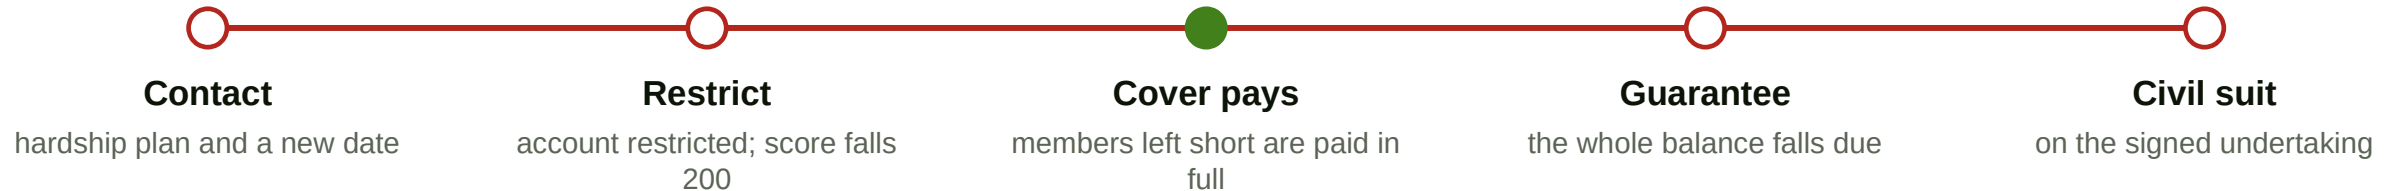

Missed Payments and Recovery

Every missed payment has a set response, written into the member's signed undertaking.

Any missed payment

A member who collected, then stopped paying

Rs 110,000

the most one member can owe after collecting

Never

calls to relatives, contact lists or public names

Charity

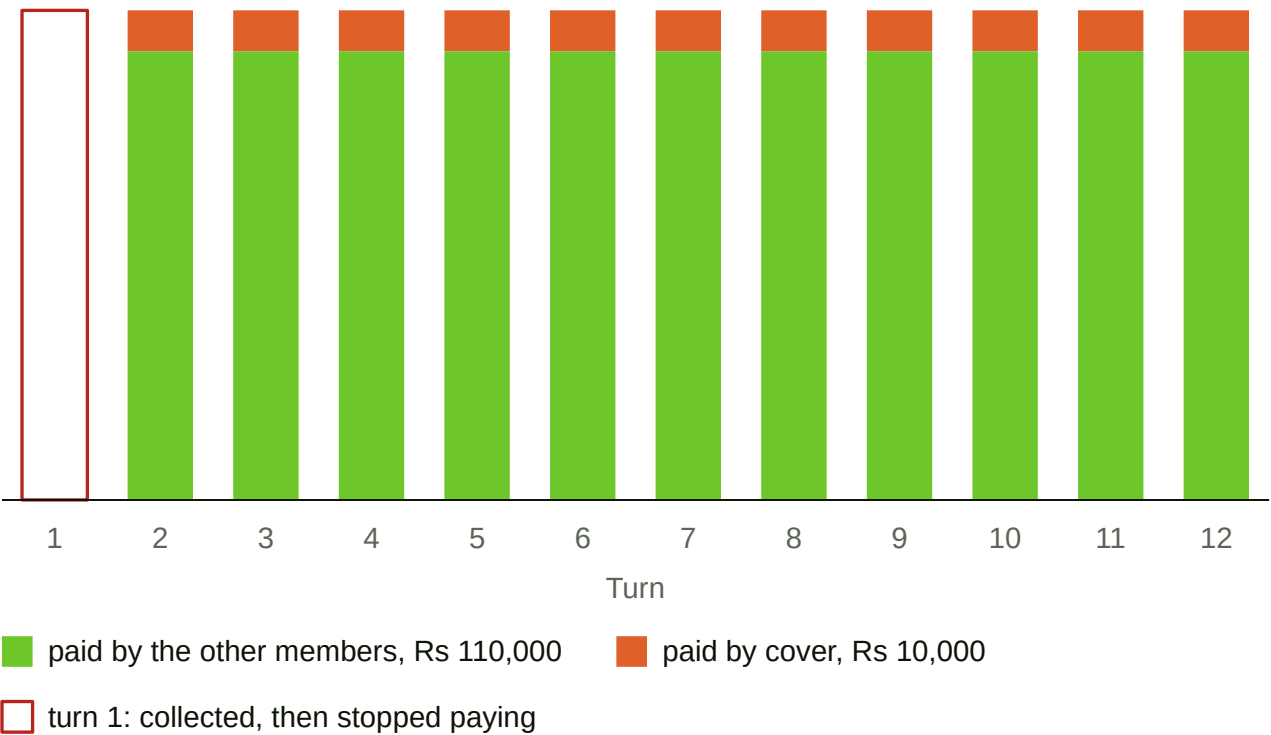

receives late fees on the Islamic window

Cover for Defaults

If an early collector stops paying, cover pays the other members in full. Mashreq chooses the form.

Each pot stays Rs 120,000 when the member at turn 1 stops paying

	Guarantee	Insurance	Takaful
Carries the loss	Mashreq	the insurer	the takaful fund
Paid through	the fee	a premium	a contribution
Islamic window	Shariah board to rule	no	yes

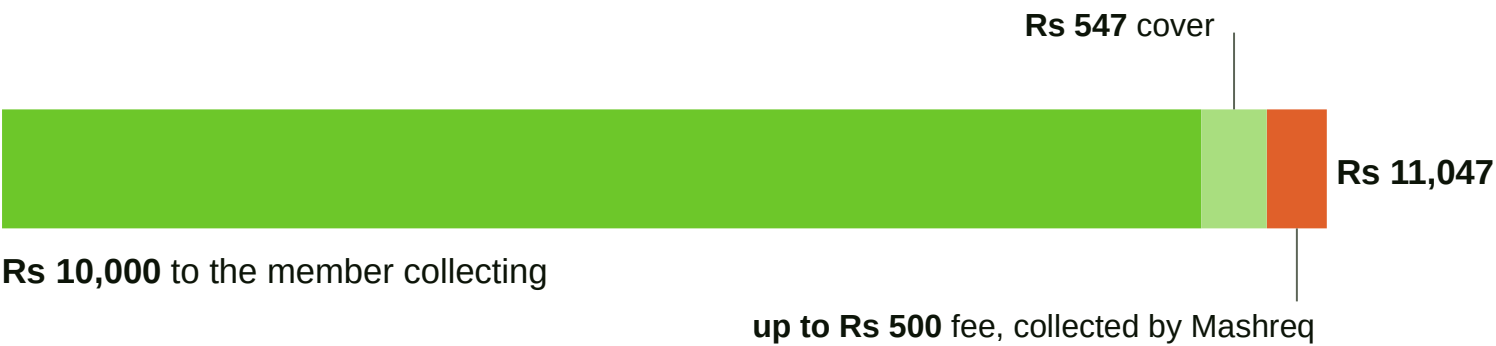

About 5.5%
of each instalment on circles of strangers, priced for a stress case.
Known circles carry no cover.

Fees and Revenue

One flat fee per instalment, the same for every turn. Mashreq collects it and shares its income with Halqa.

One instalment on a circle between strangers, Rs

Members	Profit on balances, as points
Mashreq	The fee, margin on balances, cover, financing
Halqa	An agreed share of Mashreq's income

Rs 13 to 35

running cost of one payment

Rs 1.32 million

fixed cost a month at launch

About 2,600

active members to cover fixed costs

Halqa's 25 September model, before Mashreq's terms.

Competition

Only Halqa with Mashreq has a bank holding the money, one price for every turn and a credit record.

	Halqa with Mashreq	JazzCash Committee	Oraan	Informal committee
Who holds the money	☒ Mashreq, a licensed bank	☐ the organiser's wallet	☐ Oraan's own accounts	☐ the organiser
Price of an early turn	☒ one flat fee	not published	☐ up to 21% of the instalment a month [1]	☒ usually none
Payout	☒ automatic, the same day	☐ by hand, by the organiser [2]	☐ 11th to 18th	☐ by hand
Members checked	☒ identity, income, score	☐ phone contacts	☐ device data, bureau	☐ people known
Defaults covered	☒ cover chosen by the bank	not stated	☐ Oraan's balance sheet	☐ organiser's pocket
Credit record	☒ every payment	☐ none	☐ defaulters only	☐ none
A way out	☒ five set routes	☐ none until the end	☐ before payout	☐ organiser's discretion

☒ yes
 ☐ partly
 ☐ no

Evidence from Other Markets

Digital committees have scaled abroad. Each worked with a regulator or a bank first.

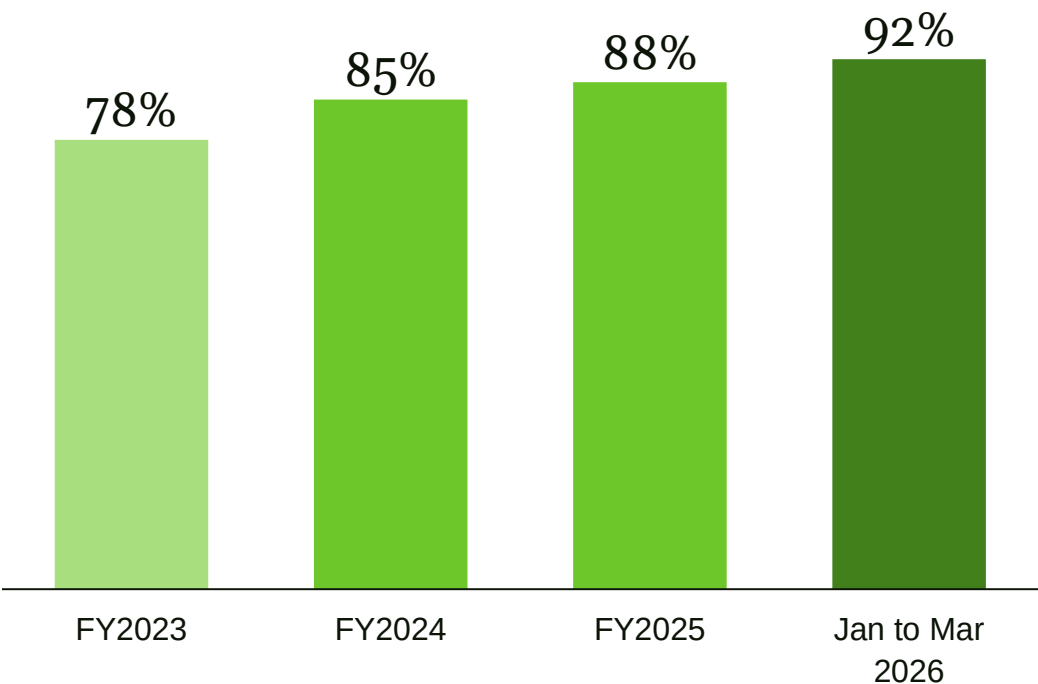

The failures held members' money without a licence, or guaranteed payouts they could not carry.

Why Now

Payments in Pakistan went digital. Committee savings did not.

Share of retail payments made digitally, %

69 million

mobile wallet users at the end of 2024 [1]

Aug 2026

JazzCash launched a committee feature; the pot sits in the organiser's wallet [2]

75% by 2028

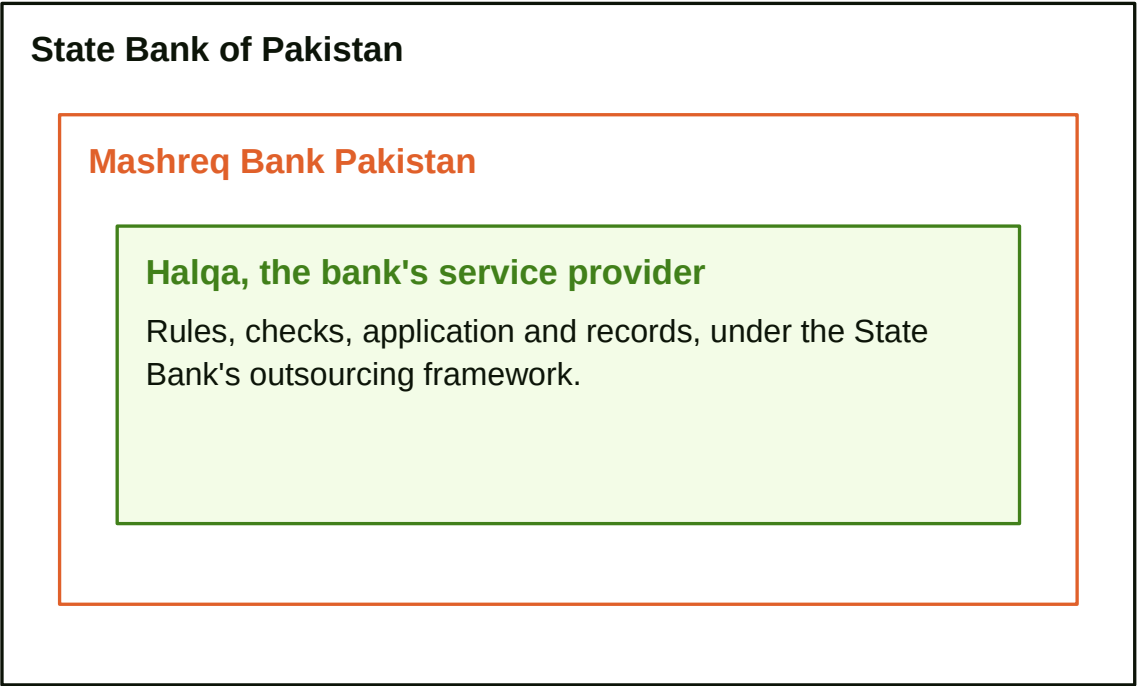

national target for adults with a financial account, up from 64% in 2023 [3]

Sources 1 State Bank of Pakistan payment systems reviews, FY2025 and Q3 FY2026 2 JazzCash release notes, August 2026 3 National Financial Inclusion Strategy 2024 to 2028

Regulation and Readiness

The application is built. State Bank regulation comes through Mashreq's licence.

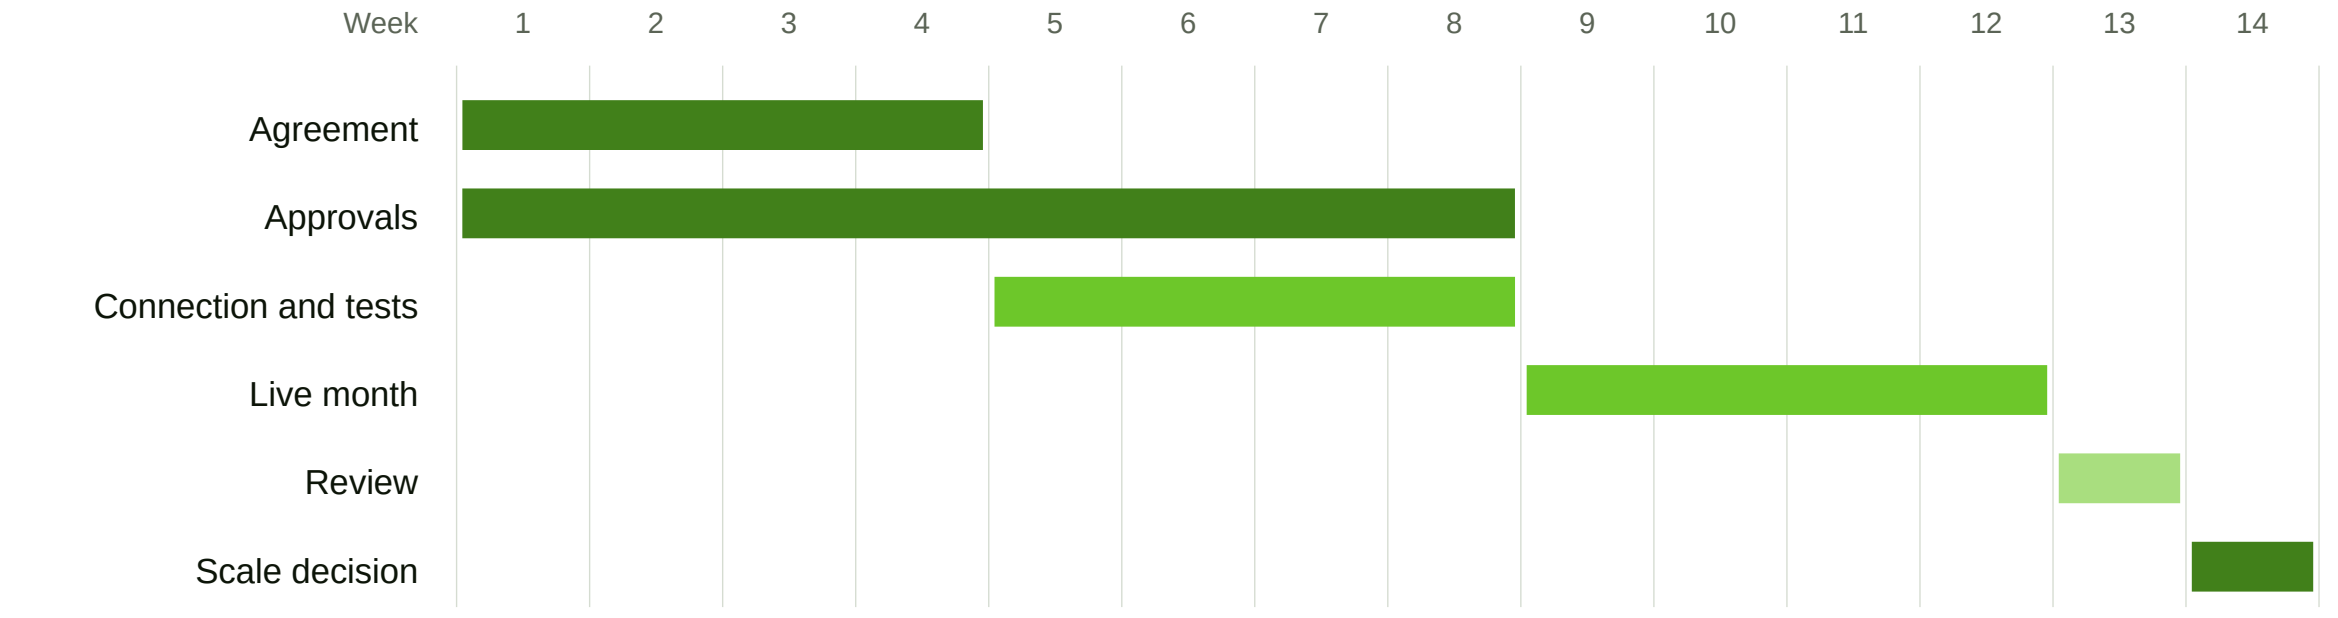

Halqa takes no licence of its own and never holds member money.

Built	Application and decision engines, live since 20 July 2026, closed to the public; payments in test mode.
Connection	Seven messages with Mashreq, from account opening to the daily statement.
Security	No card numbers, passwords or banking credentials stored by Halqa.
To do	Incorporation, the agreement and the Mashreq connection.

Pilot

One live month with about 1,000 members, after eight weeks of agreement, approvals and connection.

Scope

Up to 100 known circles, about 1,000 members, all with Mashreq accounts, on the Islamic window.

Measured

Accounts, balances, on time debits, same day payouts, circles per host, complaints, cost per member.

Then

Circles of strangers, asset circles, UAE families, then Hyper.

Requests

Seven decisions to start.

-
- | | | | |
|----------|--|----------|--|
| 1 | Approve the partnership, with Halqa as service provider under the outsourcing framework. | 5 | Hold instalments in the Islamic Current Profit Account; return profit as points. |
|----------|--|----------|--|
-
- | | | | |
|----------|--|----------|--|
| 2 | Take the product to the State Bank for approval or notice. | 6 | Choose the cover and the credit reporting route. |
|----------|--|----------|--|
-
- | | | | |
|----------|--|----------|---|
| 3 | Approve it for the Islamic window through the Shariah board. | 7 | Agree the income share and a one month pilot. |
|----------|--|----------|---|
-
- | | | | |
|----------|--|--|--|
| 4 | Open accounts and debit mandates inside the Halqa application. | | |
|----------|--|--|--|
-

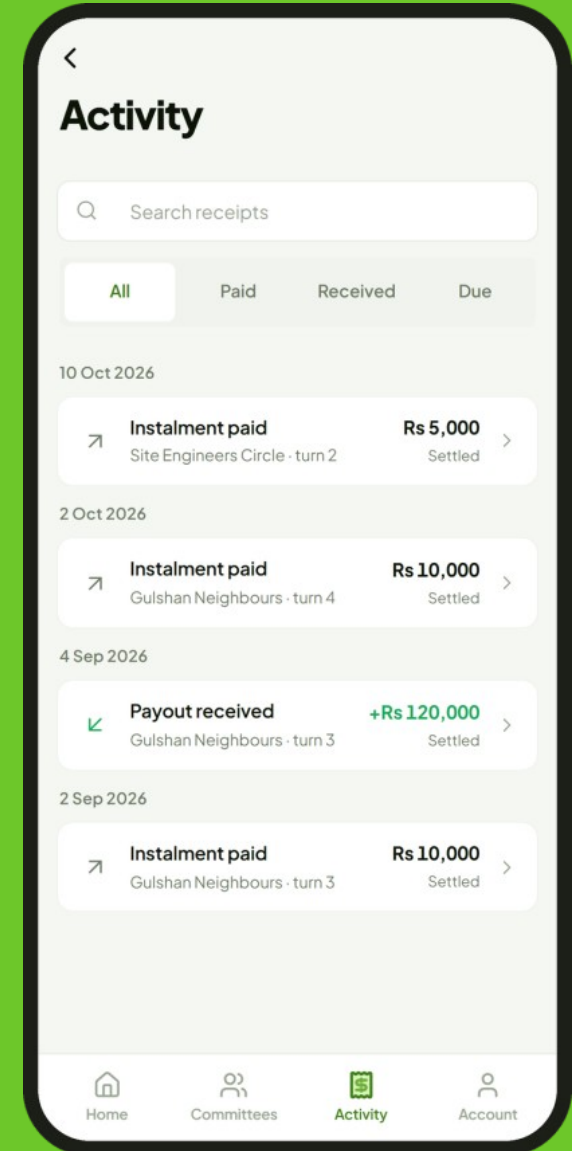

Halqa is the system. The bank is the machine.

Committees run by Halqa, on Mashreq accounts.

Taha Amjed, Chairman, Halqa

A detailed reference on the law, the product, the economics and the evidence is available.

Appendix

A2	Integration
A3	Points and the turn market
A4	Hyper: daily circles
A5	Leaving a circle
A6	Unit costs

Risks and Controls

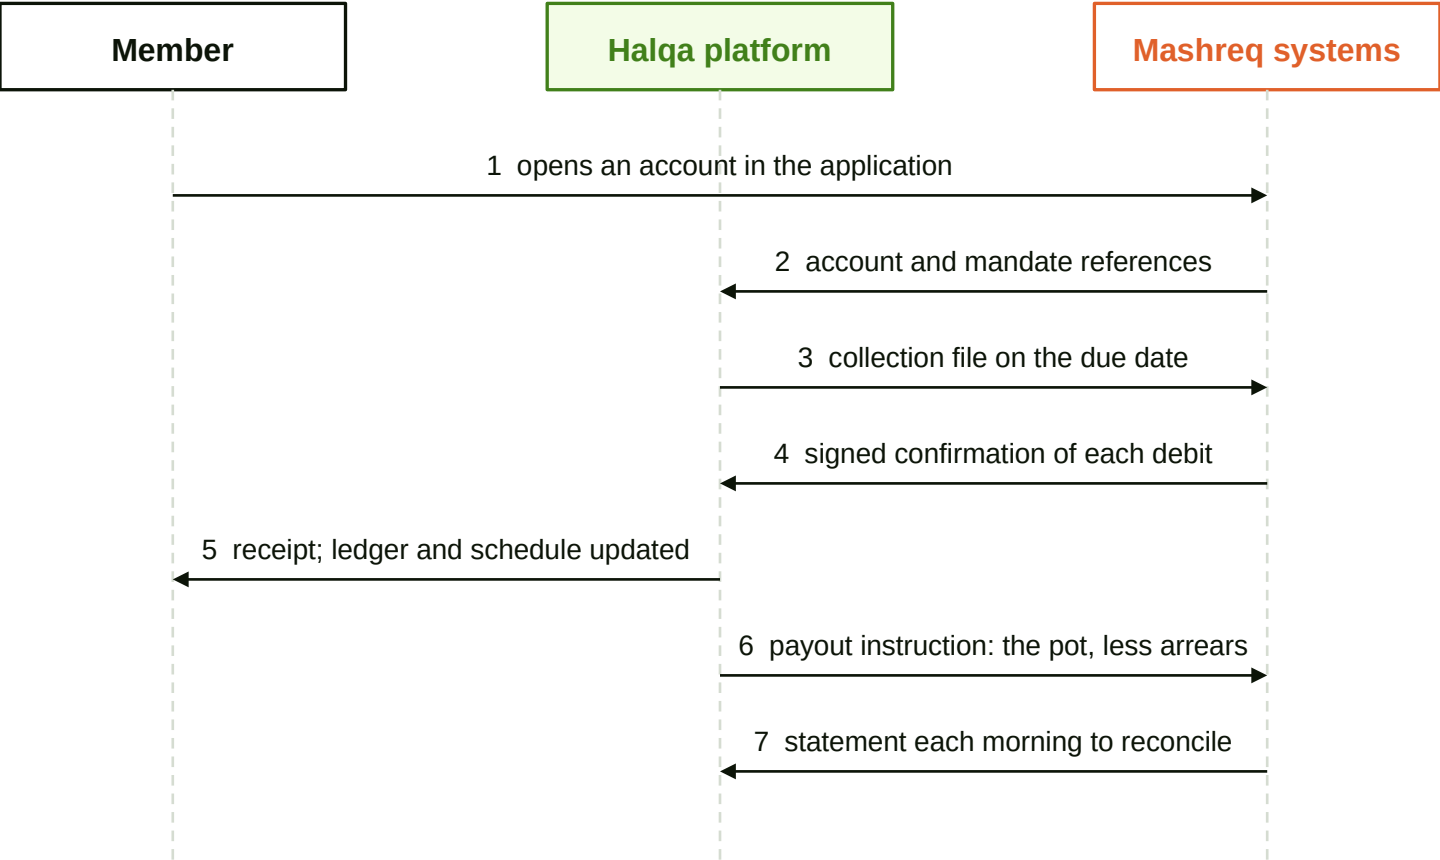

Each risk Mashreq would carry has a stated control.

Credit	Turn bands on every turn; affordability limits; arrears set off from the late member's own pot; cover chosen by Mashreq; no daily circle opens once losses would exceed cover.
Fraud and money laundering	Mashreq's due diligence at account opening; payouts only to accounts in the member's own name; fixed amounts on a fixed schedule; review of turn trades.
Technology and outsourcing	An agreement under the State Bank's outsourcing framework; security testing; audit logs on both sides; inspection rights for Mashreq and the State Bank.
Conduct	Instalments within a third of income; the full cost shown before joining; 24 hours to withdraw; recovery by stated steps, never by harassment.
Shariah	One flat fee; a takaful option; late fees to charity on the Islamic window; features outside the Shariah board's approval are labelled.
Reputation	New members start in the last turns; published rules for every circle; Hyper labelled experimental; no public list of defaulters.

Integration

Halqa sends instructions. Mashreq moves the money and confirms every step.

Messages. Signed and encrypted, with audit logs on both sides.

Credentials. Halqa stores no card number, password, banking credential or face image.

Access. Least privilege for staff and systems; penetration tests every year.

Data. Hosted where Mashreq and the State Bank require; the database moves to Pakistan if asked.

Agreement. Service levels, audit and inspection rights, complaints, continuity and exit.

Back up. Card, wallet or Raast through Safepay, a licensed payment service provider, for money coming from other banks.

Points and the Turn Market

Two features that need Mashreq's product approval and a legal view before launch.

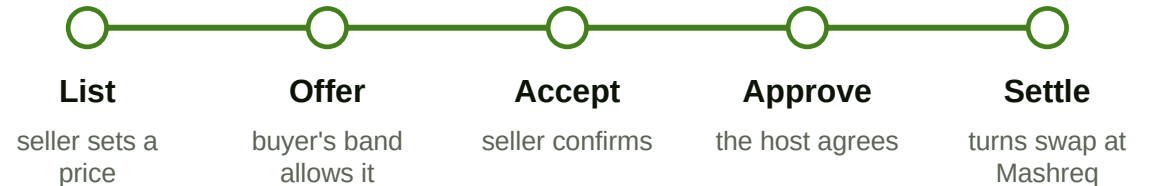

Points

Paid on time	60 points
Five on time in a row	100 more
Hosting a clean circle	2,500
Referral who completes a circle	1,000
Profit on balances	1 point a rupee
Spent on	goods, fees and turns

Never cashed out. Points bought with money run only as Mashreq's own stored value product, under its licence. The rupee value of earned points is set before launch.

Decisions of 28 September 2026; seat exchange and points design, 25 September 2026.

Turn market

Where. Monthly circles only; never on Hyper or asset circles.

Checks. Both members re-checked for their new turns before the trade settles.

Limits. A price ceiling on each turn; an exchange fee paid by the buyer.

Open points. Counsel to confirm whether a sold turn is lending between members. Circles with turn sales are not labelled Shariah compliant.

Hyper: Daily Circles

For members with daily income. Labelled experimental, with a hard stop on losses.

	Option 1	Option 2
Members	400	390
Days	50	26, Sundays off
Members collecting each day	8	15
Paid each day	Rs 450	Rs 500
to the pot	Rs 300	Rs 333.33
to cover	Rs 75	Rs 83.33
fee	Rs 75	Rs 83.33
Pot, collected once	Rs 15,000	Rs 8,666.67
Paid over the cycle	Rs 22,500	Rs 13,000

Who. Drivers, riders and traders paid daily, often through employers and associations as hosts.

Entry. Rs 1,000 or more received on five days a week for eight weeks; two clean circles; one Hyper circle at a time.

Always. Automatic debit and cover for every member; one flat fee, never graded by the day of collection.

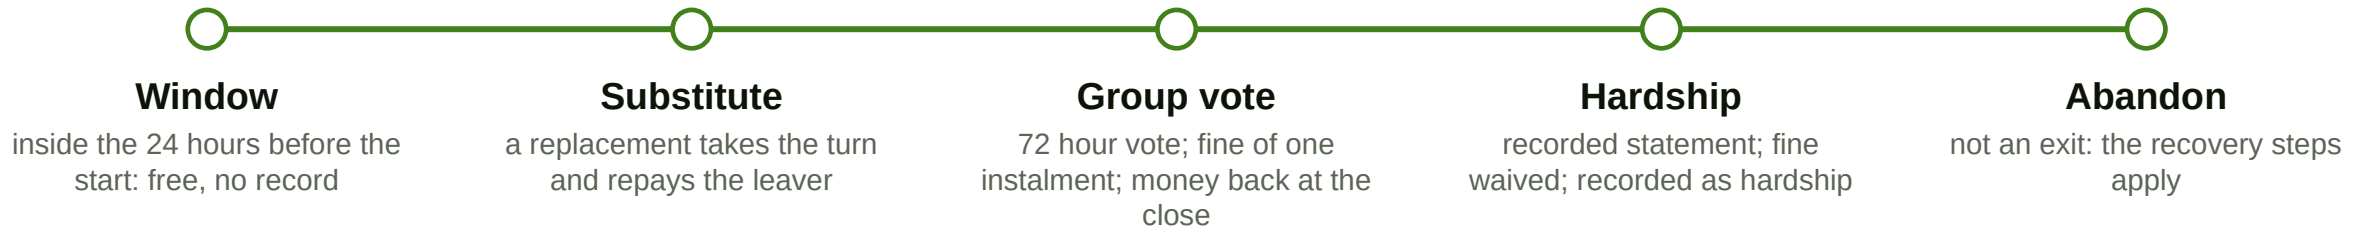

Hard stop. No new day opens once unrecovered losses would exceed the cover.

Late fees. 5%, 10% and 15% at 12, 36 and 60 hours.

Leaving a Circle

There is no cancel button. A member who has not collected leaves by one of five set routes.

Worked example

Twelve members at Rs 10,000. One leaves after round 4, having paid Rs 40,000.

The circle continues with eleven, so each later pot is Rs 10,000 smaller.

The four members who already collected full pots each return Rs 10,000 at the close.

Rs 40,000

returned to the leaver at the end of the circle, less any fine, with no profit. The wait is the deterrent.

Fines go 70% to the remaining members and 30% to administration; to charity on the Islamic window.

Unit Costs

The costs Halqa carries, and what the bank route changes.

Prices used

WhatsApp message	Rs 4.35
Identity check, NADRA	Rs 50, planning
Credit report	Rs 200, planning
Support agent a month	Rs 60,000
Cloud, a member a month	Rs 2
Acquiring a member	Rs 250, planning

What the bank route changes

	Before	With Mashreq
Member fee	Rs 100 to 500, to Halqa	Collected by Mashreq as its income
Halqa income	Fees and takaful commission	An agreed share of Mashreq's income
Collection	1%, capped at Rs 10 a debit, through Safepay	A transfer inside one bank, near nil
Cover	Takaful, Halqa as agent	Mashreq's choice of form
Credit reports	Rs 200 a report	Through Mashreq's TASDEEQ membership
