

Raqami Islamic Digital Bank

Committee savings, held and moved by an Islamic bank

A partnership proposal for Raqami Islamic Digital Bank

Taha Amjed, Chairman, Halqa

October 2026

Summary

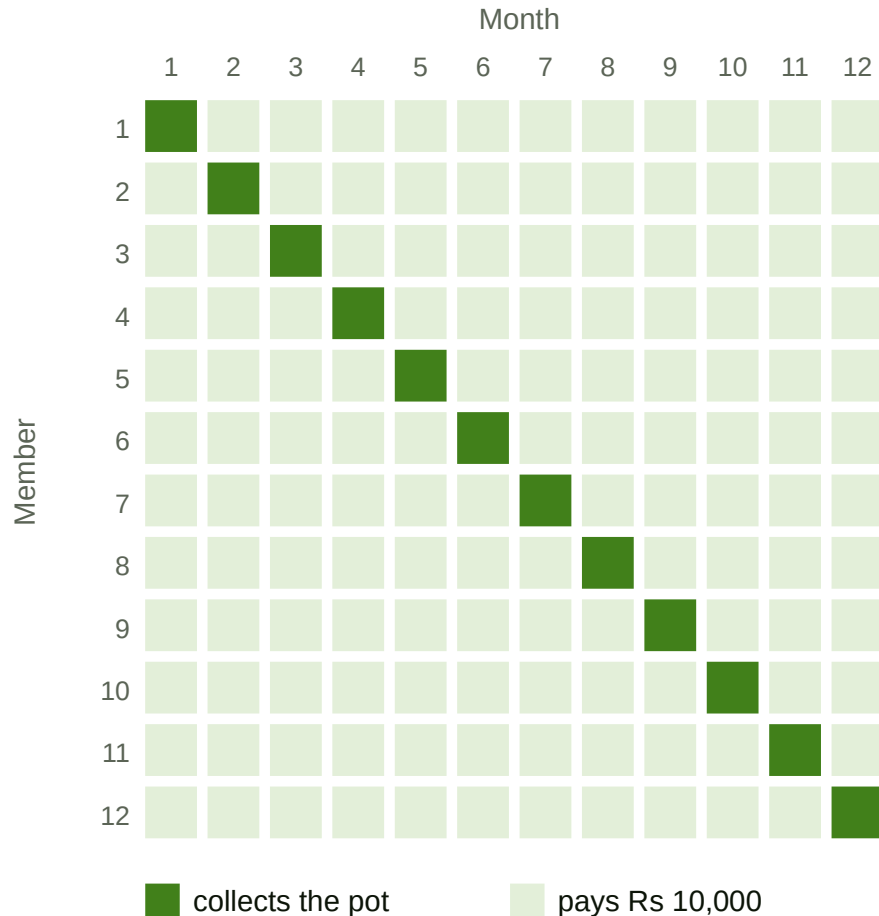

Halqa proposes to run Pakistan's committees on Raqami accounts.

The habit	More than a third of Pakistanis save in committees: no interest, all cash, outside any bank.
The proposal	Every member banks with Raqami. Raqami holds and moves every rupee; Halqa runs the committee.
For Raqami	Accounts opened 6 to 20 at a time, deposits, a product without interest and a repayment record to finance against.
For members	No organiser holding cash, automatic payment, takaful against default and a credit record.
The request	Seven decisions, including a Shariah Board ruling, then one live month with about 1,000 members.

How a Committee Works

Everyone pays the same amount each month. Each month, one member takes the whole pot.

Rs 10,000

paid in by every member, every month

Rs 120,000

the pot, taken by one member each month

First turn. An advance without interest, repaid by the instalments that follow.

Last turn. Saving, with a deadline the group enforces.

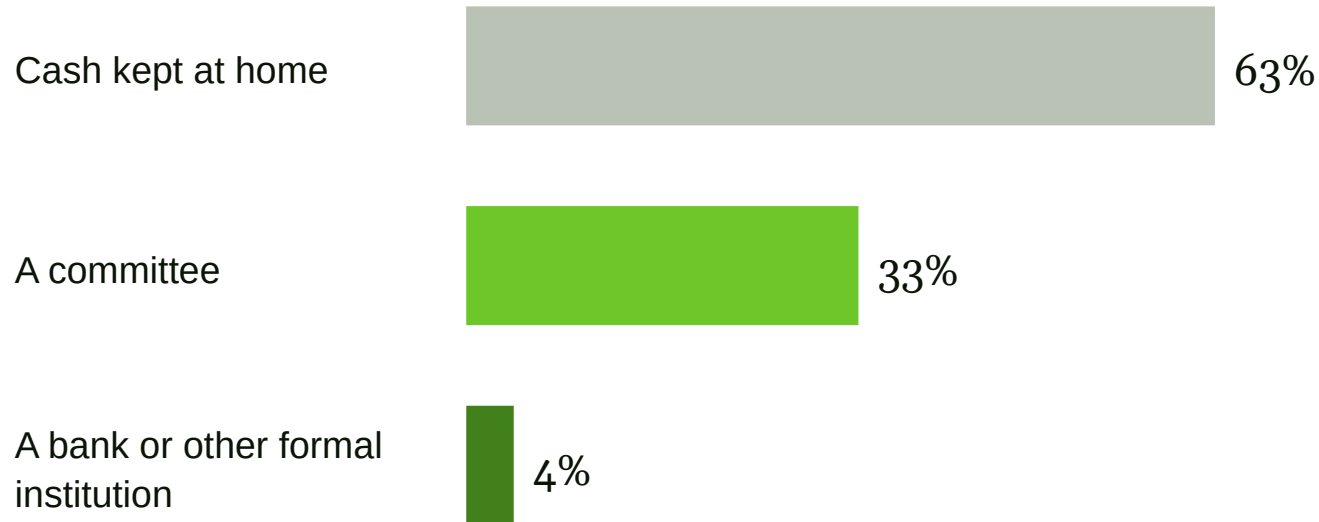

In total, every member pays in Rs 120,000 and takes out Rs 120,000: an interest free loan between members.

The Market

More than a third of Pakistanis save in committees. Almost none of that money reaches a bank.

Where Pakistani savers keep their savings, per cent of savers [2]

34% to 41%

of Pakistanis take part in committees [1]

Rs 4 trillion

estimated to pass through committees each year [1]

Twice

the rate of participation for women as for men [2]

The Problem

Committees run on trust and cash. When the trust fails, members lose their money.

12%

of committee users lost money to fraud [1]

Rs 420 million

taken from 117 committees by one
organiser, 2022 [2]

63%

of savers keep savings as cash at home [1]

The Proposal

Halqa is the system. Raqami is the machine. Every rupee stays inside Raqami.

Halqa runs

Hosts, members, circles and the order of turns
Checks on identity, income and affordability
Reminders, late payments and recovery
The ledger, receipts and records

Raqami runs

Accounts and customer checks
Debits and payouts
Term deposits and profit sharing
Takaful cover and credit reporting

Halqa never holds member money and never lends.

The Product

Members do everything in the Halqa application. Under the partnership, the Raqami account opens inside it.

1 Join a circle

Only circles and turns the member qualifies for

2 Pay automatically

Debited by Raqami on the due date

3 Collect the pot

Paid into the member's own account

4 Build a credit record

Every payment scored and reported

A Month Inside Raqami

Each step runs on a Raqami product. Automatic debit is the one new piece.

Cash earners. Free cash deposits at over 700 Askari Bank branches. **New lines.** Takaful for committees; Islamic financing for asset circles.

Raqami product pages and FAQ, read 29 September 2026. The due date of the 8th is proposed; the 7 day term fits where payday is at least seven days before it.

Mutual Benefit

100,000 members would add about Rs 2.5 billion of deposits, more than Raqami held at 30 June 2026.

Customer deposits, Rs billion

Assumes Rs 25,000 average balance a member; 1,000,000 members would hold about Rs 25 billion.

Raqami's aim or need	What committee members bring
1 million customers in three years	Accounts opened 6 to 20 at a time
Women, students, farmers, freelancers	The people who already save this way
Only Shariah compliant products	No interest by design
Financing of Rs 27.6 million so far	A repayment record for every member
Free cash deposits at Askari Bank	Cash earners pay in cash

Onboarding and Checks

Raqami checks the customer. Halqa checks whether the member can carry the committee.

Checks rise with risk. Known circles: identity only. Strangers: income, affordability and a credit report as well. Hyper: proof of daily income too.

Stored. Results only; never face images, card numbers or passwords.

Committee Types

The less members know each other, the more checks apply.

	Known	Strangers	Large, strangers	Asset	Hyper
Who	family, colleagues, neighbours	matched by Halqa	traders and larger savers	buying a motorcycle or machine	daily earners: drivers, riders, traders
Members	6 to 12	12	20	12	390 to 400
Instalment	Rs 2,000 to 10,000	Rs 10,000	Rs 25,000	Rs 10,000	Rs 450 to 500 a day
Frequency	monthly or weekly	monthly	monthly	monthly	daily
Income checked	○	●	●	●	●
Automatic debit	○	●	●	●	●
Takaful	○	●	●	●	●
Credit report read	○	●	●	●	●
Stage	pilot	after the pilot	after the pilot	after the pilot	experimental

● required ○ not required

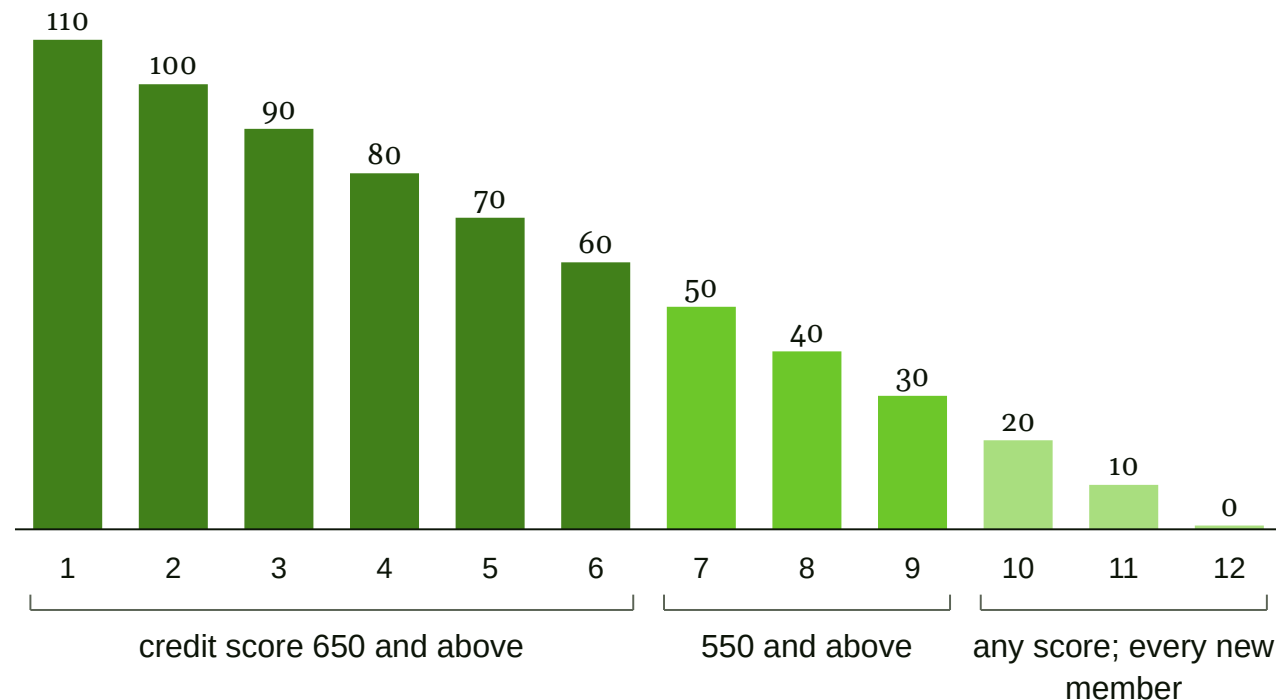

Turn bands apply in every type. Cover and financing follow the bank's choice of product.

Where the Risk Sits

Only an early collector can leave others short. Early turns need strong credit scores.

Still owed after collecting, by turn, Rs thousand: twelve members at Rs 10,000

Turn bands. The credit score decides which turns a member may claim.

New members. The last three turns only, until two clean circles.

Affordability. All instalments within a third of verified income; 40% with other loans.

Commitments. A signed undertaking and mutual guarantee; 24 hours to withdraw.

Missed Payments and Recovery

Every missed payment has a set response, written into the member's signed undertaking.

Any missed payment

A member who collected, then stopped paying

Rs 110,000

the most one member can owe after collecting

Never

calls to relatives, contact lists or public names

Charity

receives every late penalty

Takaful for Defaults

If an early collector stops paying, takaful pays the other members in full.

Each pot stays Rs 120,000 when the member at turn 1 stops paying

How it works. Each instalment carries a small takaful contribution. The fund pays members left short, in their own names.

Operator. Raqami's takaful partner EFU, or another operator. None contracted for committees.

Price. About 5.5% of the instalment on circles of strangers, priced for a stress case.

Known circles. No takaful needed.

Shariah Structure

Each part of the committee rests on one contract. None of them carries interest.

Part of the committee	Contract	How it works
Instalments	Qard	Each member lends to the member collecting, without interest, and is repaid by the later instalments. Every member takes out exactly what they paid in.
Service fee	Ujrah	A flat fee for running the committee, the same for every turn, never linked to how early the pot is taken.
Waiting balance	Mudarabah	The instalment sits in a term deposit until the due date. Profit is shared; the members' share returns as points.
Cover	Takaful	Members contribute to a takaful fund that pays any member left short.
Late payment	Charity	Penalties are paid to charity. Neither Raqami nor Halqa keeps them.
Changing turns	Swap only	Members may swap turns. A turn is never sold for money or points.
Points	Reward	Earned for paying on time and finishing a circle. Never bought with money.

Every part is subject to the ruling of Raqami's Shariah Board.

Fees and Revenue

One flat service fee (ujrah), the same for every turn. Raqami collects it and shares its income with Halqa.

One instalment on a circle between strangers, Rs

Members	Their share of profit, as points
Raqami	The fee, its share of profit, takaful, financing
Halqa	An agreed share of Raqami's income

Rs 13 to 35

running cost of one payment

Rs 1.32 million

fixed cost a month at launch

About 2,600

active members to cover fixed costs

Halqa's 25 September model, before Raqami's terms.

Competition

Only Halqa with Raqami has an Islamic bank holding the money, one fee for every turn and a credit record.

	Halqa with Raqami	JazzCash Committee	Oraan	Informal committee
Who holds the money	☒ Raqami, an Islamic bank	☒ the organiser's wallet	☐ Oraan's own accounts	☐ the organiser

A way out	☒ five set routes	☐ none until the end	☒ before payout	☒ organiser's discretion

☒ yes
 ☒ partly
 ☐ no

Evidence from Other Markets

Digital committees scaled first in Saudi Arabia and Egypt, each with a regulator or a bank.

The failures held members' money without a licence, or guaranteed payouts they could not carry.

Why Now

Payments in Pakistan went digital. Committee savings did not.

Share of retail payments made digitally, %

69 million

mobile wallet users at the end of 2024 [1]

Aug 2026

JazzCash launched a committee feature; the pot sits in the organiser's wallet [2]

75% by 2028

national target for adults with a financial account, up from 64% in 2023 [3]

1 Jan 2028

the constitutional deadline to end riba in Pakistan [4]

Sources 1 State Bank of Pakistan payment systems reviews, FY2025 and Q3 FY2026 2 JazzCash release notes, August 2026 3 National Financial Inclusion Strategy 2024 to 2028 4 Constitution of Pakistan, Article 38(f), 26th Amendment

Regulation and Readiness

The application is built. State Bank regulation comes through Raqami's licence.

Halqa takes no licence of its own and never holds member money.

Built	Application and decision engines live since 20 July 2026; closed to the public; payments in a test environment.
Connection	Seven messages through Raqami's open platform, from account opening to the daily statement.
Shariah	Each part set out for Raqami's Shariah Board before launch.
To do	Incorporation, the agreement and the Raqami connection.

Pilot

One live month with about 1,000 members, after eight weeks of agreement, approvals and connection.

Scope

Up to 100 known circles, about 1,000 members, all with Raqami accounts.

Measured

Accounts, balances, on time debits, same day payouts, circles per host, complaints, cost per member.

Then

Circles of strangers, asset circles, then Hyper.

Requests

Seven decisions to start.

| <hr/> <p>1 Approve the partnership, with Halqa as service provider under the outsourcing framework.</p> <hr/> | <hr/> <p>5 Place instalments in the 7 day term deposit; return profit as points.</p> <hr/> |
| <hr/> <p>2 Take the committee structure to the Shariah Board for a ruling.</p> <hr/> | <hr/> <p>6 Arrange takaful cover and the credit reporting route.</p> <hr/> |
| <hr/> <p>3 Take the product to the State Bank for approval or notice.</p> <hr/> | <hr/> <p>7 Agree the income share and a one month pilot.</p> <hr/> |
| <hr/> <p>4 Open accounts and automatic debits inside the Halqa application.</p> <hr/> | |

Raqami Islamic Digital Bank

Halqa is the system. The bank is the machine.

Committees run by Halqa, on Raqami accounts.

Taha Amjed, Chairman, Halqa

A detailed reference on the law, the product, the economics and the evidence is available.

Appendix

A2	Integration
A3	Points and turn swaps
A4	Hyper: daily circles
A5	Leaving a circle
A6	Unit costs

Risks and Controls

Each risk Raqami would carry has a stated control.

Credit	Turn bands on every turn; affordability limits; arrears set off from the late member's own pot; takaful for circles of strangers; no daily circle opens once losses would exceed cover.
Fraud and money laundering	Raqami's due diligence at account opening; payouts only to accounts in the member's own name; fixed amounts on a fixed schedule; review of turn swaps.
Technology and outsourcing	An agreement under the State Bank's outsourcing framework; security testing; audit logs on both sides; inspection rights for Raqami and the State Bank.
Conduct	Instalments within a third of income; the full cost shown before joining; 24 hours to withdraw; recovery by stated steps, never by harassment.
Shariah	Every part ruled on by the Shariah Board before launch; penalties to charity; turns swapped, never sold; points never bought with money.
Reputation	New members start in the last turns; published rules for every circle; Hyper labelled experimental; no public list of defaulters.

Integration

Halqa sends instructions. Raqami moves the money and confirms every step.

Messages. Signed and encrypted, with audit logs on both sides.

Credentials. Halqa stores no card number, password, banking credential or face image.

Access. Least privilege for staff and systems; penetration tests every year.

Data. Hosted where Raqami and the State Bank require; the database moves to Pakistan if asked.

Agreement. Service levels, audit and inspection rights, complaints, continuity and exit.

Back up. Card, wallet or Raast through Safepay, a licensed payment service provider, for money coming from other banks.

Points and Turn Swaps

Points are earned, never bought. Turns may be swapped, never sold.

Points

Paid on time	60 points
Five on time in a row	100 more
Hosting a clean circle	2,500
Referral who completes a circle	1,000
Share of profit on balances	1 point a rupee
Spent on	goods and fees

Never cashed out and never sold. The rupee value of earned points is set before launch, subject to the Shariah Board.

Turn swaps

Where. Monthly circles only; never on Hyper or asset circles.

Price. None. A turn is never sold for money or points.

Checks. Both members re-checked for their new turns before the swap.

Record. Every swap is recorded on the circle's ledger.

Hyper: Daily Circles

For members with daily income. Labelled experimental, with a hard stop on losses.

	Option 1	Option 2
Members	400	390
Days	50	26, Sundays off
Members collecting each day	8	15
Paid each day	Rs 450	Rs 500
to the pot	Rs 300	Rs 333.33
to takaful	Rs 75	Rs 83.33
fee	Rs 75	Rs 83.33
Pot, collected once	Rs 15,000	Rs 8,666.67
Paid over the cycle	Rs 22,500	Rs 13,000

Who. Drivers, riders and traders paid daily, often through employers and associations as hosts.

Cash. Members paid in cash deposit it free at over 700 Askari Bank branches.

Entry. Rs 1,000 or more received on five days a week for eight weeks; two clean circles; one Hyper circle at a time.

Always. Automatic debit and takaful for every member; one flat fee, never graded by the day of collection.

Hard stop. No new day opens once unrecovered losses would exceed the takaful cover. Penalties go to charity.

Leaving a Circle

There is no cancel button. A member who has not collected leaves by one of five set routes.

Worked example

Twelve members at Rs 10,000. One leaves after round 4, having paid Rs 40,000.

The circle continues with eleven, so each later pot is Rs 10,000 smaller.

The four members who already collected full pots each return Rs 10,000 at the close.

Rs 40,000

returned to the leaver at the end of the circle, less any fine, with no profit. The wait is the deterrent.

Fines go to charity; neither Raqami nor Halqa keeps them.

Unit Costs

The costs Halqa carries, and what the bank route changes.

Prices used

WhatsApp message	Rs 4.35
Identity check, NADRA	Rs 50, planning
Credit report	Rs 200, planning
Support agent a month	Rs 60,000
Cloud, a member a month	Rs 2
Acquiring a member	Rs 250, planning

What the bank route changes

	Before	With Raqami
Member fee	Rs 100 to 500, to Halqa	Collected by Raqami as ujah
Halqa income	Fees and takaful commission	An agreed share of Raqami's income
Collection	1%, capped at Rs 10 a debit, through Safepay	A transfer inside one bank, near nil
Cover	Takaful, Halqa as agent	Takaful arranged through Raqami
Credit reports	Rs 200 a report	Reported through Raqami, or by Halqa
